COST Action FA1408 European Network for Foodborne Parasites in Europe (EURO-FBP)

1st Working group meeting & 2nd Management Committee meeting,
October 26-27 2015, Zagreb, Croatia

“Current status of foodborne parasites by country.”

Presentations, abstracts and attendance

Each country should prepare a single presentation giving an overview of the status of foodborne parasites in their particular country. MC members, deputies, and work group members from a particular country should coordinate in order that data are as comprehensive and accurate as possible. MC members should contact deputies and WG members from their country in order to obtain the relevant info. MC members who are unable to attend the meeting should decline via e-cost as soon as possible and contact their deputies.

We are working with different journals, in particular the recently launched Journal for Food and Waterborne Parasitology, published by Elsevier, regarding publication in a Special Issue.
